

## The map game

Use a Norwich city street map (DOS has some city centre shopping maps)

Take it in turns to ask "how can I get from Surrey Street to Tombland?" (for example!)

Explain how to get from one place to another.

### **Variations**

You could try asking direction to a building rather than a street eg. The Castle, the Forum, etc.

You could use other maps of Norfolk or London or bus maps or underground maps.

You might be able to look at a map from your language partner's country (on line?) and discuss the similarities/differences.

### **Outcomes**

Increase understanding of the descriptive vocabulary to do with direction and geography of the town.

Become more familiar with Norwich

Build confidence for excursions into the city

Increase confidence to ask for directions when needed.
