21. ISD FUNDING REQUESTS

Considered and approved
a report on ISD funding requests. (A copy is filed in the Minute Book, ref. ISC15D013)

Action: Director of Information Services to discuss arrangements for charging for the Microsoft Campus Agreement with the Director of Finance.

Response: The Director of Information Services clarified with Finance that they do indeed pay the MS Campus agreement and recoup the costs from departments. The request from ISD for additional funds in respect of this licence is a reflection of the increased cost to ISD from increased student numbers. This money would then be transferred to Finance to cover our additional contribution to the campus licence.
