Dear [REDACTED]

Freedom of Information Act 2000 – Information request (ref: FOI_17-172)

We have now considered your request of 07 July 2017 for information relating to the funding and financial support received by UEA from the fossil fuel and manufacturing industries.

Our response is on page 2 of this letter, together with a copy of your request. As we have not received a response to our correspondence of 07 July asking for clarification of your request, we are responding based on our initial understanding of your request.

We hope this information will meet your requirements, however if you are not satisfied you have the right of appeal. If you wish to appeal, please set out in writing your reasons for appealing and send to the above address. You must appeal within 60 calendar days of the date of this letter. Any appeal received after that date will not be considered nor acknowledged. This policy has been reviewed and approved by the Information Commissioner's Office.

You also have a subsequent right of appeal to the Information Commissioner's Office. Further information is available on their website:

https://ico.org.uk/Global/contact_us, or by telephone on 0303 123 1113.

Please note that any material over which UEA has copyright is released on the understanding that you will comply with all relevant copyright rules regarding reproduction and/or transmission of the information provided.

Please quote our reference given at the head of this letter in all correspondence.

Yours sincerely

Response to Freedom of Information Act 2000 request (FOI_17-172)

Please can you provide details of any funding, grants or other forms of financial support received from the fossil fuel industry and the manufacturing industry. Please can the response include the name of the company, the funding amount, date and the purpose of the funding.

Please limit your search to a date range of January 2014 to present day.

Our response is within the table below.

Please note:

- We have excluded 'fossil fuel industry' companies that provide advice to the oil and gas sector, but do not operate directly within that sector.
- We have used the following definition of 'manufacturing': "*The branch of manufacture and trade based on the fabrication, processing, or preparation of products from raw materials and commodities. This includes all foods, chemicals, textiles, machines, and equipment. This includes all refined metals and minerals derived from extracted ores. This includes all lumber, wood, and pulp products.*" (see: <https://www.hq.nasa.gov/iwgsdi/Manufacturing.html>)
