

UNIVERSITY OF EAST ANGLIA

EQUALITY AND DIVERSITY COMMITTEE - TERMS OF REFERENCE

Background and Purpose

In November 2009 the University established an Equality and Diversity Committee. Recent years have seen increasing legal requirements for the Higher Education sector not only to raise the profile of equality issues, but to embed them in all key activities, be pro-active and undertake a far more consultative approach with students and staff than in previous decades.

The work of the Equality and Diversity Committee helps prioritise projects and policy initiatives, allocation of resource, ensures compliance and facilitates debate. An underpinning principle of the Committee is a commitment to move beyond compliance to proactivity in policy and practice wherever possible.

The Committee guides Schools and Units in the effective integration and implementation of University Equality policies and initiatives, promoting an inclusive and equitable environment for work and study that will enable achievement of corporate objectives and individual potential. It will ensure policies and principles are translated into action.

To achieve its aims the Committee will draw on commitment and expertise that exist across the University spreading ownership throughout the organisation.

It will consult with the Executive Team and report to Council as well as liaising with relevant committees including Learning and Teaching Committee on equality issues as appropriate.

Terms of Reference

1. To advise the Council and the Executive Team on the fulfilment of the University's statutory obligations in respect of equality and diversity and to recommend policy for approval.
2. To ensure that institutional schemes, action plans, initiatives and policies are achievable, effective, properly owned and translated into action.
3. To establish such sub committees as the Committee deems appropriate.
4. To consider staff and student profile data with a view to a) informing decisions about the allocation and use of resources and b) ensuring the institution is operating equitably.
5. To keep abreast of developments and disseminate information on equality and diversity across the University so that capacity is built on equality issues in all areas.
6. To establish two-way communication with staff and student networks to ensure their views are sought and represented as appropriate.
7. To keep under review membership of the Committee and make recommendations accordingly to Council.
