ASA

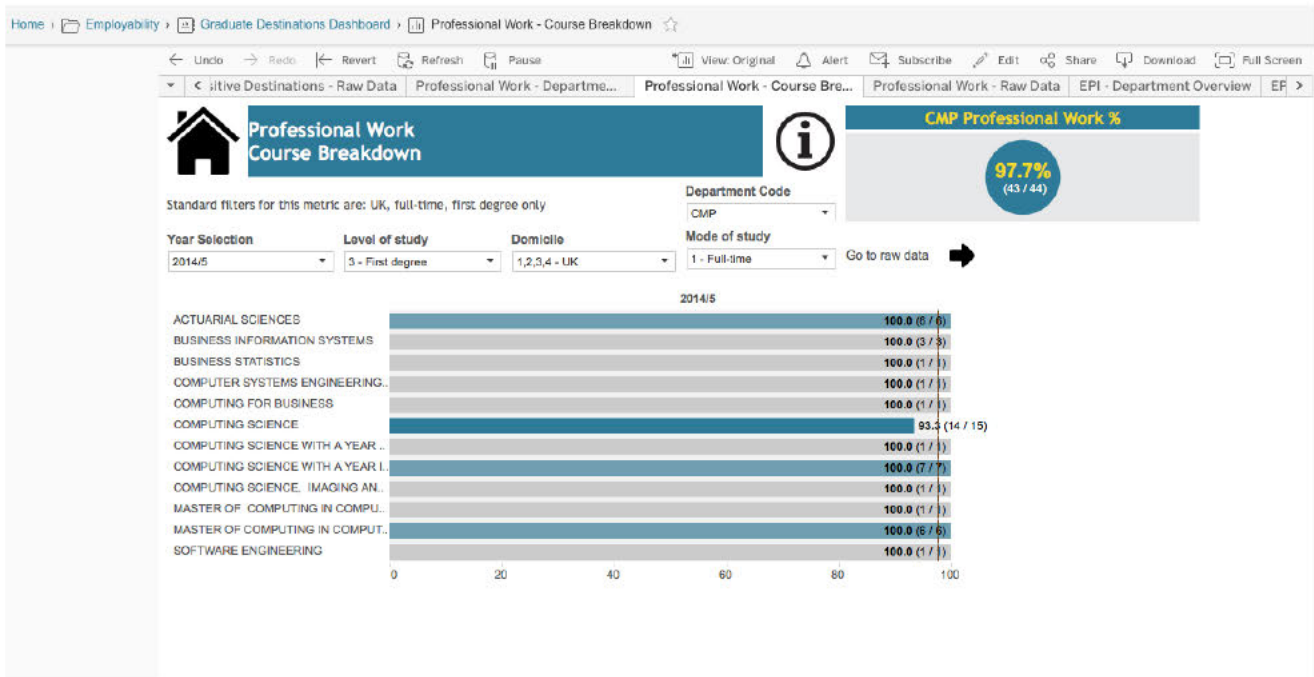

■ reported on the ASA issue. Use of the 2018 prospectus needs to be stopped with immediate effect and as much collateral recalled as possible. The group raised the point that this is very difficult with offices all over the world and extremely hard to control. Existing branded Gnow chocolate bars are still being distributed, but further orders will have re-printed branding.

This means that there won't be main prospectuses to hand out in HEA fairs in Jan/Feb. ■ is having mini prospectuses reprinted ASAP. The 2019 prospectus will be available on 12 March 2018.

Action: ■ to update ET on ARM's actions and decisions so that they can sign this off ■
