

INTERNATIONAL OPEN ACCESS WEEK 22-28 OCTOBER 2018

PROMOTING OPEN RESEARCH

SCHEDULE

22 October 10am, TPSC 0.1 Seminar Room

'Open Access: News and Developments', Dr Anna Collins (RIN)

22 October 12pm, ARTS 1.02 IT Lab

Developing a Pure Profile

23 October 12pm, ARTS 1.02 Lab

Adding a Publication to Pure

23 October 1pm, LT4

'Open Science at the Royal Society', Dr Stuart Taylor (The Royal Society)

24 October 2pm, LT3

'Legal and Ethical Considerations to Creating Shareable Research Data',
Dr Scott Summers (UK Data Service)

24 October 3pm, LT3

'Using the UKDS ReShare System' attendees bring laptop

25 October 10am, QB 1.04

'Exploring the Benefits of Open Research', Prof Tracey Chapman (BIO)

25 October 12pm, ARTS 1.04 IT Lab

Making the Most of your Datasets in Pure

26 October 12pm & 1pm repeat, ARTS 1.04 IT Lab

Introduction to Creating or Connecting an ORCID ID in Pure by
Prof Anshuman Mondal (LDC)

TALKS & SPEAKERS

OPEN SCIENCE AT THE ROYAL SOCIETY

Dr Stuart Taylor, Publishing Director at The Royal Society

The Royal Society is the national academy of science for the UK. They have been publishing science for over 350 years and introduced open access on all their journals in 2006. Today, almost half of RS articles are published with immediate open access under CC-BY licence.

LEGAL AND ETHICAL CONSIDERATIONS TO CREATING SHAREABLE RESEARCH DATA

Dr Scott Summers, Senior Research Data Services Officer, UKDS

There is a growing push from funders and journals to making the data behind publications and research open. Where research involves people as participants, their privacy and confidentiality needs to be protected. This talk will explore how research data can be shared using the three-pronged approach of (i) consent, (ii) anonymisation, and (iii) access controls.

EXPLORING BENEFITS OF OPEN RESEARCH

Prof Tracey Chapman, BIO - UEA

A talk and discussion session on open access, data sharing and open research from a researcher's perspective - focussing on how and why to share data and what benefits it may bring.

INFORMATION SESSIONS

OPEN ACCESS: NEWS AND DEVELOPMENTS

RIN Open Access & Systems team, led by Dr Anna Collins

An update on the evolving open access environment, and what it means for UEA researchers.

HANDS-ON: USING THE UKDS RESHARE SYSTEM

Dr Scott Summers, Senior Research Data Services Officer, UKDS

Attendees bring a laptop

ReShare is the UK online data repository, where researchers (especially ESRC grant holders) can archive, publish and share research data.

DROP-IN SESSIONS

HANDS-ON: DEVELOPING A PURE PROFILE

RIN Open Access team

HANDS-ON: ADDING A PUBLICATION TO PURE

RIN Open Access team

HANDS-ON: MAKING THE MOST OF YOUR DATASETS IN PURE

RIN Open Access team

HANDS-ON: CREATING OR CONNECTING AN ORCID ID IN PURE

Introduction by Prof Anshuman Mondal, LDC - UEA
