

PROOFREADING SERVICES

This is the University's approved list of proofreading services for use by UEA students. The proof readers on this list have attended a training event at UEA designed to ensure that they are aware of the UEA guidance and policies relating to the use of proof readers; plagiarism and collusion; and misconduct in research.

All proof readers on this list charge for their services. The University does not recommend one proof reader over another and cannot guarantee the quality of their work. You use these services at your own risk and expense.

Read the University's [Guidance on the Use of Proof Readers](#) before using a proofreading service.
