| Professor Academician YANG Yuliang<br>President of Fudan University, in Shanghai. | ScD    | <p><u>Achievement:</u></p> <p>Professor Yang has made noted contributions in macromolecular and polymer sciences, and has also demonstrated leadership in education and science policy in China. He has shown vision in internationalising research and education at Fudan University, particularly in the area of interdisciplinary research and education. He has had a vital role in the collaboration between Fudan and UEA, both directly, as in the case of the Tyndall-Fudan Centre for Climatic Research and the new Fudan energy efficiency building, and more generally in his continuing support of the cooperation between our two universities, such as:</p> <ul style="list-style-type: none"> <li>• Tyndall-Fudan Centre for Climatic Research (intended to be launched on 4 May 2010)</li> <li>• CRed Fudan Franchise (launched in 2008, currently in Phase Two)</li> <li>• UEA-Fudan joint teaching of BSc Environmental Sciences (launched in 2009, with the expectation of 8-10 Fudan students joining UEA in 2010)</li> <li>• Fudan-UEA collaboration design-planning, commissioning, and management of Fudan's Exemplary Energy Efficiency Building</li> <li>• Agreement to plan wide-ranging collaborations in a range of disciplines</li> </ul> <p>(Written by proposer Prof Trevor Davies)</p> |
